

## Professional Profile

**MATT BROWER**  
*Principal*

### **CAREER SUMMARY**

Matt Brower co-founded Column Commercial Partners in late 2011. Prior to that he served as a leader in the Tenant Advisory Group and Education Practice Group at Grubb & Ellis Company, and was there for over 9 years. Since his launch in the industry he has been involved in leasing and sales transactions with a value totaling in excess of \$150 million. Focused on representing the tenant and buyer side exclusively, he has consulted with and assisted a long list of national firms and local companies by driving savings through taking a strategic approach to their real estate objectives. Matt understands the value of building long term relationships based on trust and loyalty, and thus thrives on the strong network he has built with clients and business associates across the country. He is currently involved in a number of non-profit, philanthropic and business organizations. He received a Bachelor's Degree in Marketing from Arizona State University.

The number of loyal clients in multiple markets across the country that Matt assists is a testament to the level of service he provides. Once a company engages him, they quickly learn that no stone will remain unturned, and that they won't be leaving any money on the table. New Horizons Computer Learning Centers engaged Matt to assist them with a relocation of their Downtown Denver office. From that experience, they have continued to use him across the country for all of their corporate-owned locations. Long View Systems is another example of a transaction that Matt worked on in Denver and the relationship grew into a great friendship and national client. As Long View continues to expand throughout the United States, Matt is their key real estate advocate. Headwaters MB, Xact Data Discovery and Columbia College are also clients with very similar stories.
